- **Vendor Work Occurs**-April 24 – August 29, 2025
- **Vendor Work Complete**-August 30, 2025
- **Final Vendor Payment Complete**-September 30, 2025
- **Final TA Deliverable Due**-September 30, 2025
- **Grant Close-Out**-October 31, 2025

Frequently Asked Questions (FAQs)

- **Can you provide the timeline for the grant process?**

Yes! Key project milestones are listed above. Each awardee is responsible for identifying a vendor, ensuring they are onboarded into Foundant, and working with NRGRDA to get them vetted and approved prior to the start of project work.

- **How will the funds be distributed?**

NRGRDA will pay approved vendors directly for their work on the project, up to the total amount awarded. This is not a reimbursement-based grant to the awardee.

- **What is the process to request funds?**

Once your vendor is onboarded in Foundant and their scope of work is approved, they may begin work. Vendors will invoice NRGRDA directly, and NRGRDA will handle payment processing.

- **Is there a date range as to when the services can start and end?**

Yes. All vendor work must take place between April 24 and August 29, 2025. Final vendor payments and deliverables must be submitted by September 30, 2025.

- **How hands-on will NRGRDA be in this process?**

NRGRDA will support the onboarding and vetting of vendors and will oversee project progress. While we don't manage your vendor's day-to-day work, we are available to provide guidance and ensure compliance throughout the process.

- **Are there any other requirements or restrictions I should be aware of?**

All vendors must be onboarded through Foundant and approved by NRGRDA before beginning work. Projects must follow the scope and budget outlined in the award, and deliverables are due by September 30, 2025.
